Antimicrobial silver (I) complexes derived from aryl-benzothiazoles as turn-on sensors: Syntheses, properties and density functional Studies

Jenny Stenger-Smith, Indranil Chakraborty, W.M.C. Sameera, Pradip K. Mascharak

PII: S0020-1693(17)31594-3
DOI: <https://doi.org/10.1016/j.ica.2017.11.022>
Reference: ICA 17992

To appear in: *Inorganica Chimica Acta*

Received Date: 17 October 2017
Accepted Date: 13 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
