

## Accepted Manuscript

To what extent do structural changes in catalytic metal sites affect enzyme function?

Yana Valasatava, Antonio Rosato, Nicholas Furnham, Janet M. Thornton, Claudia Andreini

PII: S0162-0134(17)30385-9  
DOI: doi:[10.1016/j.jinorgbio.2017.11.002](https://doi.org/10.1016/j.jinorgbio.2017.11.002)  
Reference: JIB 10362

To appear in: *Journal of Inorganic Biochemistry*

Received date: 26 May 2017  
Revised date: 2 November 2017  
Accepted date: 4 November 2017

Please check if appropriate. *Jib*(2017), doi:[10.1016/j.jinorgbio.2017.11.002](https://doi.org/10.1016/j.jinorgbio.2017.11.002)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**To what extent do structural changes in catalytic metal sites affect enzyme function?**
