Unprecedented oxidation of aldimine to carboxamido function during reactivity studies on ruthenium complex with acidified nitrite solution: Synthesis of ruthenium nitrosyl complex having $\{\text{RuNO}\}^6$ moiety and photorelease of coordinated NO

Rajan Kumar, Sushil Kumar, Manju Bala, Anand Ratnam, U.P. Singh, Kaushik Ghosh

PII: S0022-328X(18)30099-8

DOI: [10.1016/j.jorganchem.2018.02.010](https://doi.org/10.1016/j.jorganchem.2018.02.010)

Reference: JOM 20309

To appear in: *Journal of Organometallic Chemistry*

Received Date: 16 December 2017

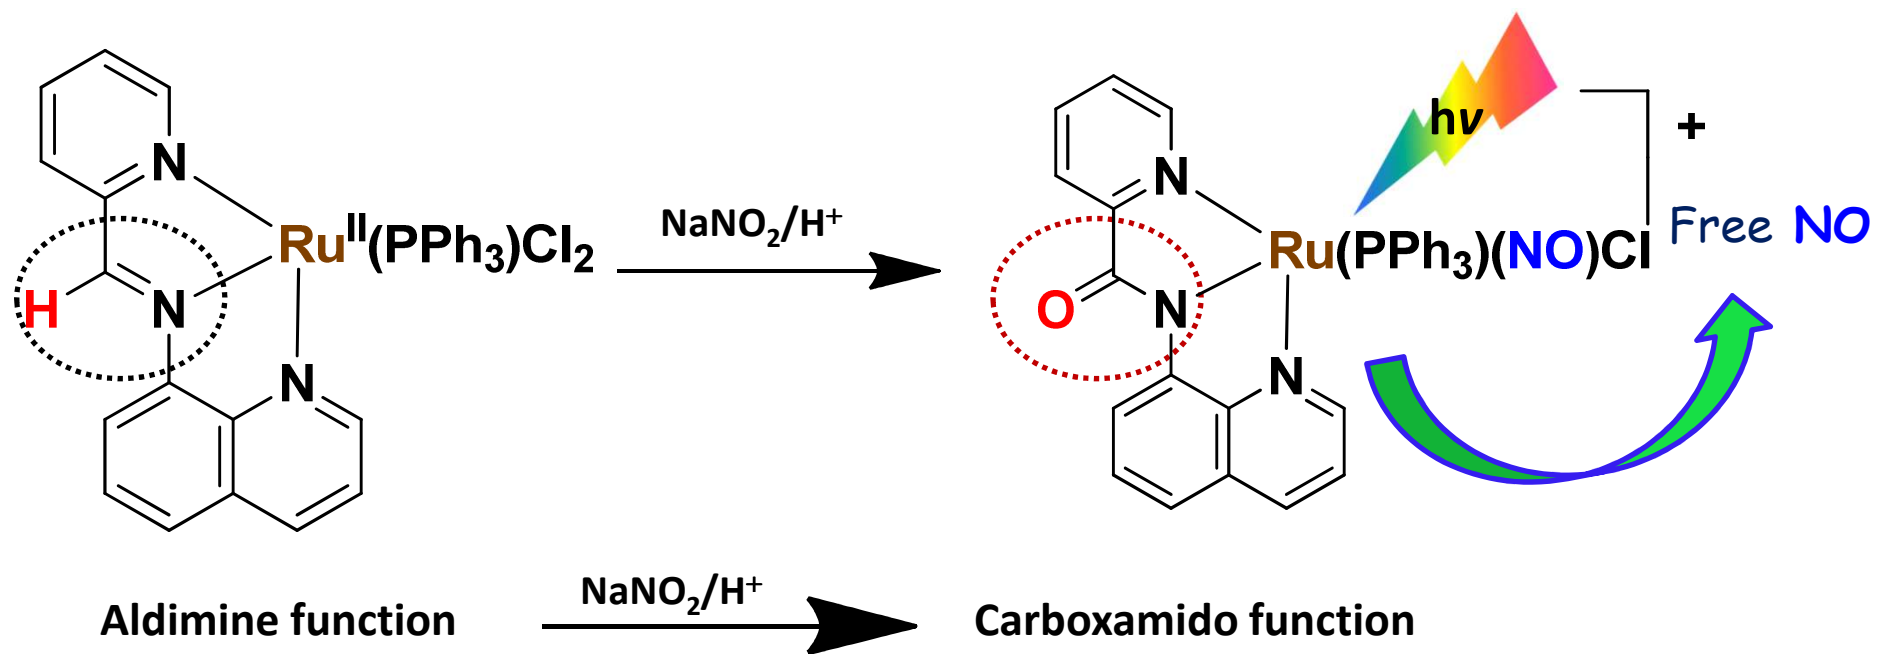

Revised Date: 29 January 2018

Accepted Date: 7 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
