Elaboration of a Proprietary Thymidylate Kinase Inhibitor Motif Towards Anti-Tuberculosis Agents

Lijun Song, Martijn D.P. Risseeuw, Matheus Froeyen, Izet Karalic, Jan Goeman, Davie Cappoen, Johan Van der Eycken, Paul Cos, H el ene Munier-Lehmann, Serge van Calenbergh

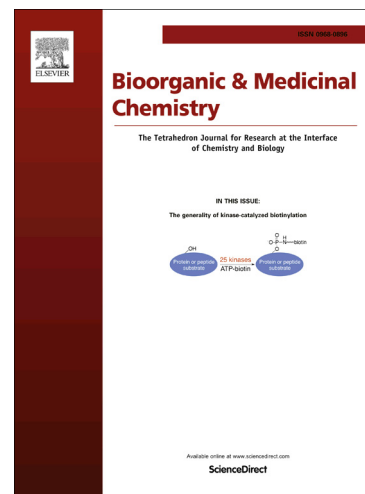

PII: S0968-0896(16)30649-6
DOI: <http://dx.doi.org/10.1016/j.bmc.2016.08.041>
Reference: BMC 13224

To appear in: *Bioorganic & Medicinal Chemistry*

Received Date: 30 April 2016
Revised Date: 20 August 2016
Accepted Date: 22 August 2016

Please cite this article as: Song, L., Risseeuw, M.D.P., Froeyen, M., Karalic, I., Goeman, J., Cappoen, D., Eycken, J.V.d., Cos, P., Munier-Lehmann, H., Calenbergh, S.v., Elaboration of a Proprietary Thymidylate Kinase Inhibitor Motif Towards Anti-Tuberculosis Agents, *Bioorganic & Medicinal Chemistry* (2016), doi: <http://dx.doi.org/10.1016/j.bmc.2016.08.041>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
