Title: Structural characteristics and bioactive properties of a novel polysaccharide from *Flammulina velutipes*

Authors: Tiantian Zhang, Jufeng Ye, Changhu Xue, Yuming Wang, Wenzhen Liao, Limei Mao, Miaomiao Yuan, Sen Lian

PII: S0144-8617(18)30623-4
DOI: <https://doi.org/10.1016/j.carbpol.2018.05.069>
Reference: CARP 13651

To appear in:

Received date: 15-3-2018
Revised date: 8-5-2018
Accepted date: 24-5-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Structural Characteristics and Bioactive Properties of a Novel Polysaccharide from *Flammulina velutipes*
