Title: Polyurethane elastomer composites reinforced with waste natural cellulosic fibers from office paper in thermal properties

Authors: Wanqing Lei, Changqing Fang, Xing Zhou, Yaguang Li, Mengyuan Pu

PII: S0144-8617(18)30690-8
DOI: <https://doi.org/10.1016/j.carbpol.2018.06.036>
Reference: CARP 13710

To appear in:

Received date: 31-1-2018
Revised date: 12-5-2018
Accepted date: 6-6-2018

Please cite this article as: Lei W, Fang C, Zhou X, Li Y, Pu M, Polyurethane elastomer composites reinforced with waste natural cellulosic fibers from office paper in thermal properties, *Carbohydrate Polymers* (2018), <https://doi.org/10.1016/j.carbpol.2018.06.036>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Polyurethane elastomer composites reinforced with waste natural cellulosic fibers
from office paper in thermal properties**
