Title: Electroconductive 3D polymeric network production by using polyaniline/chitosan-based hydrogel

Authors: Celil Ulutürk, Neslihan Alemdar

PII: S0144-8617(18)30363-1

DOI: <https://doi.org/10.1016/j.carbpol.2018.03.099>

Reference: CARP 13449

To appear in:

Received date: 18-12-2017

Revised date: 29-3-2018

Accepted date: 29-3-2018

Please cite this article as: Ulutürk, Celil., & Alemdar, Neslihan., Electroconductive 3D polymeric network production by using polyaniline/chitosan-based hydrogel. *Carbohydrate Polymers* <https://doi.org/10.1016/j.carbpol.2018.03.099>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Electroconductive 3D polymeric network production by using polyaniline/chitosan-based hydrogel
