## Accepted Manuscript

Title: A one-step approach to make cellulose-based hydrogels of various transparency and swelling degrees

Author: Hongjuan Geng

PII: S0144-8617(18)30031-6

DOI: https://doi.org/10.1016/j.carbpol.2018.01.031

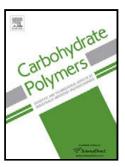

Reference: CARP 13181

To appear in:

Received date: 7-10-2017 Revised date: 7-1-2018 Accepted date: 10-1-2018

Please cite this article as: & Geng, Hongjuan., A one-step approach to make cellulose-based hydrogels of various transparency and swelling degrees. *Carbohydrate Polymers* https://doi.org/10.1016/j.carbpol.2018.01.031

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
