Title: Isolation of barley hulls and straw constituents and study of emulsifying properties of their arabinoxylans

Author: Madhav P. Yadav Kevin B. Hicks

PII: S0144-8617(15)00558-5

DOI: <http://dx.doi.org/doi:10.1016/j.carbpol.2015.06.049>

Reference: CARP 10040

To appear in:

Received date: 11-5-2015

Revised date: 11-6-2015

Accepted date: 18-6-2015

Please cite this article as: Yadav, M. P., and Hicks, K. B., Isolation of barley hulls and straw constituents and study of emulsifying properties of their arabinoxylans, *Carbohydrate Polymers* (2015), <http://dx.doi.org/10.1016/j.carbpol.2015.06.049>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Highlights:**

- 2 • Functional arabinoxylans (AX) were isolated from barley hulls and straws
3 • Barley hulls contained more AX than barley straws
4 • AX from barley straws were better emulsifier than AX from barley hulls
5
