Title: Pullulan-based composite scaffolds for bone tissue engineering: Improved osteoconductivity by pore wall mineralization

Author: Amrita Aditya Arora Poonam Sharma Dhirendra S. Katti

PII: S0144-8617(15)00069-7
DOI: <http://dx.doi.org/doi:10.1016/j.carbpol.2015.01.038>
Reference: CARP 9626

To appear in:

Received date: 26-8-2014
Revised date: 20-1-2015
Accepted date: 23-1-2015

Please cite this article as: Amrita, Arora, A., Sharma, P., and Katti, D. S., Pullulan-based composite scaffolds for bone tissue engineering: Improved osteoconductivity by pore wall mineralization, *Carbohydrate Polymers* (2015), <http://dx.doi.org/10.1016/j.carbpol.2015.01.038>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
