Targeting prohibitin with small molecules to promote melanogenesis and apoptosis in melanoma cells

Amel Djehal, Mohammad Krayem, Ahmad Najem, Hassan Hammoud, Thierry Cresteil, Canan G. Nebigil, Dong Wang, Peng Yu, Embarek Bentouhami, Ghanem E. Ghanem, Laurent Désaubry

PII: S0223-5234(18)30543-9

DOI: [10.1016/j.ejmech.2018.06.052](https://doi.org/10.1016/j.ejmech.2018.06.052)

Reference: EJMECH 10522

To appear in: *European Journal of Medicinal Chemistry*

Received Date: 7 May 2018

Revised Date: 18 June 2018

Accepted Date: 22 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
