Evaluation of 4-oxo-quinoline-based CB2 PET radioligands in R6/2 chorea huntington mouse model and human ALS spinal cord tissue

Ahmed Haider, Francesco Spinelli, Adrienne Müller Herde, Boshuai Mu, Claudia Keller, Markus Margelisch, Markus Weber, Roger Schibli, Linjing Mu, Simon M. Ametamey

PII: S0223-5234(17)31128-5

DOI: [10.1016/j.ejmech.2017.12.097](https://doi.org/10.1016/j.ejmech.2017.12.097)

Reference: EJMECH 10075

To appear in: *European Journal of Medicinal Chemistry*

Received Date: 22 November 2017

Revised Date: 28 December 2017

Accepted Date: 30 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
