A Click chemistry approach for the synthesis of *mono* and *bis* aryloxy linked coumarinyl triazoles as anti-tubercular agents

Ashish Anand, Reshma J. Naik, Hrishikesh M. Revankar, Manohar V. Kulkarni, Sheshagiri R. Dixit, Shrinivas D. Joshi

PII: S0223-5234(15)30302-0

DOI: [10.1016/j.ejmech.2015.10.019](https://doi.org/10.1016/j.ejmech.2015.10.019)

Reference: EJMECH 8154

To appear in: *European Journal of Medicinal Chemistry*

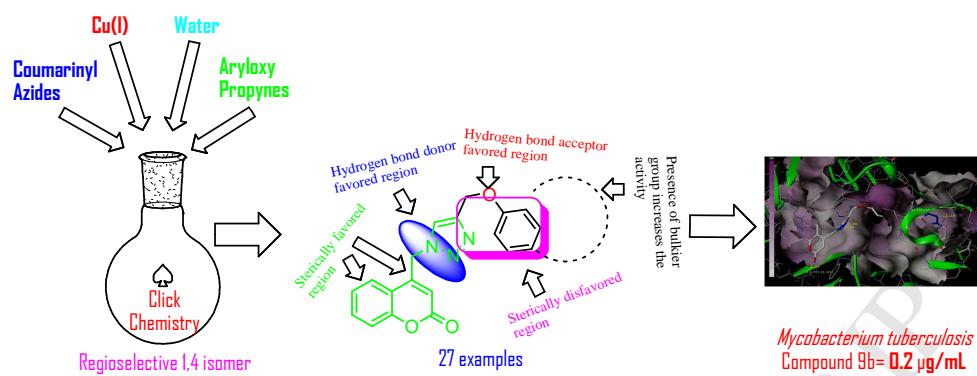

Received Date: 3 July 2015

Revised Date: 6 October 2015

Accepted Date: 8 October 2015

Joshi, A Click chemistry approach for the synthesis of *mono* and *bis* aryloxy linked coumarinyl triazoles as anti-tubercular agents, *European Journal of Medicinal Chemistry* (2015), doi: 10.1016/j.ejmech.2015.10.019.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Graphical abstract: Showing Click Chemistry approach for the synthesis of *mono* and *bis* coumarinyl triazoles.
