Tough hydrogel based on covalent crosslinking and ionic coordination from ferric iron and negative carboxylic groups

Wei Zhao, Hui Liu, Lijie Duan, Guanghui Gao

PII: S0014-3057(18)30948-0

DOI: <https://doi.org/10.1016/j.eurpolymj.2018.08.002>

Reference: EPJ 8515

To appear in: *European Polymer Journal*

Received Date: 23 May 2018

Revised Date: 29 July 2018

Accepted Date: 2 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Tough hydrogel based on covalent crosslinking and ionic coordination from
ferric iron and negative carboxylic groups**
