

Accepted Manuscript

Lowering energy band gap and enhancing photocatalytic properties of Cu/ZnO composite decorated by transition metals

A. Modwi, Mohamed A. Ghanem, Abdullah M. Al-Mayouf, Ammar Houas

PII: S0022-2860(18)30783-X

DOI: [10.1016/j.molstruc.2018.06.082](https://doi.org/10.1016/j.molstruc.2018.06.082)

Reference: MOLSTR 25369

To appear in: *Journal of Molecular Structure*

Received Date: 13 May 2018

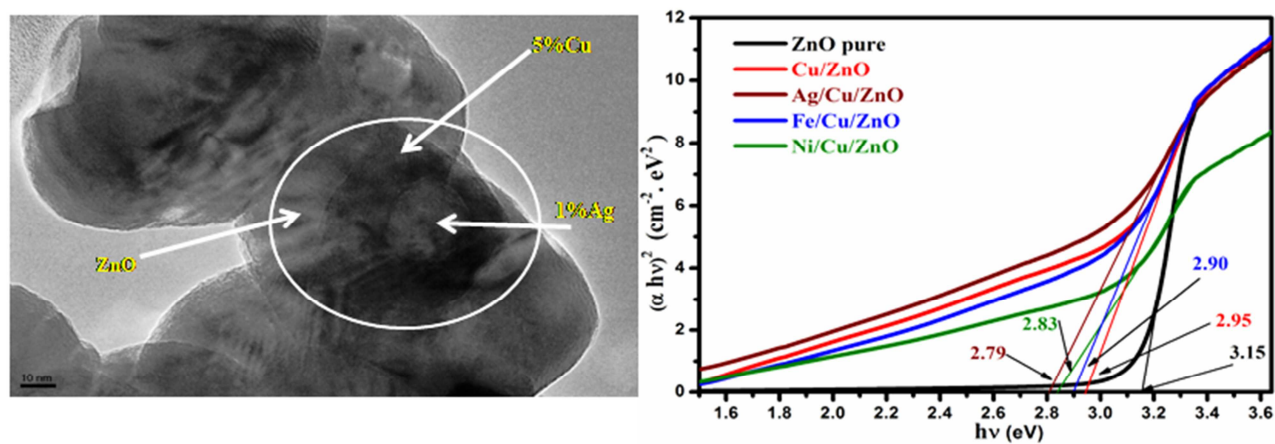

Revised Date: 19 June 2018

Accepted Date: 19 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
