Synthesis, structure and topological analysis of glycine templated highly stable cadmium sulfate framework: A New Lewis Acid catalyst

Avijit Kumar Paul

PII: S0022-2860(17)31722-2

DOI: [10.1016/j.molstruc.2017.12.102](https://doi.org/10.1016/j.molstruc.2017.12.102)

Reference: MOLSTR 24721

To appear in: *Journal of Molecular Structure*

Received Date: 12 September 2017

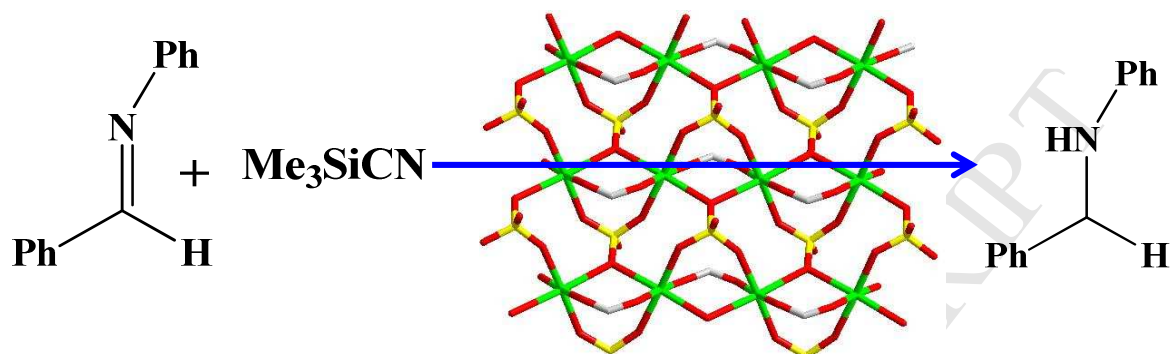

Revised Date: 11 December 2017

Accepted Date: 31 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
