A novel coumarin-pyrazole-triazine based fluorescence chemosensor for fluoride detection via deprotonation process: Experimental and theoretical studies

Ergin Yalçın, Meltem Alkış, Nurgül Seferoğlu, Zeynel Seferoğlu

PII: S0022-2860(17)31530-2

DOI: [10.1016/j.molstruc.2017.11.042](https://doi.org/10.1016/j.molstruc.2017.11.042)

Reference: MOLSTR 24529

To appear in: *Journal of Molecular Structure*

Received Date: 23 May 2017

Revised Date: 9 November 2017

Accepted Date: 10 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
