Accepted Manuscript

Characterization of newly synthesized pyrimidine derivatives for corrosion inhibition as inferred from computational chemical analysis

F. El-Taib Heakal, S.A. Rizk, A.E. Elkholy

PII: S0022-2860(17)31277-2

DOI: 10.1016/j.molstruc.2017.09.079

Reference: MOLSTR 24328

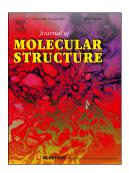

To appear in: Journal of Molecular Structure

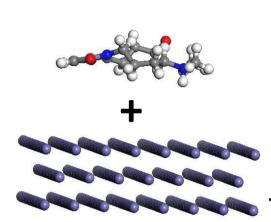

Received Date: 9 August 2017

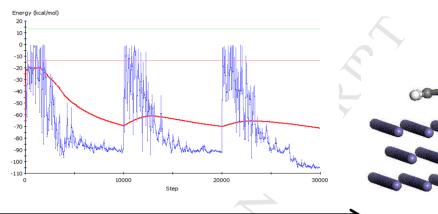

Revised Date: 19 September 2017 Accepted Date: 21 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
