

## Accepted Manuscript

Methylated naphthalenes as indicators for evaluating the source and source rock lithology of degraded oils

Kenta Asahina, Noriyuki Suzuki

PII: S0146-6380(17)30136-5

DOI: <https://doi.org/10.1016/j.orggeochem.2018.06.012>

Reference: OG 3744

To appear in: *Organic Geochemistry*

Received Date: 1 March 2017

Revised Date: 1 June 2018

Accepted Date: 21 June 2018

Please cite this article as: Asahina, K., Suzuki, N., Methylated naphthalenes as indicators for evaluating the source and source rock lithology of degraded oils, *Organic Geochemistry* (2018), doi: <https://doi.org/10.1016/j.orggeochem.2018.06.012>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Methylated naphthalenes as indicators for evaluating  
the source and source rock lithology of degraded oils
