

Accepted Manuscript

Supraglacial microbes use young carbon and not aged cryoconite carbon

Drake O. McCrimmon, Michael Bizimis, Alexandra Holland, Lori A. Ziolkowski

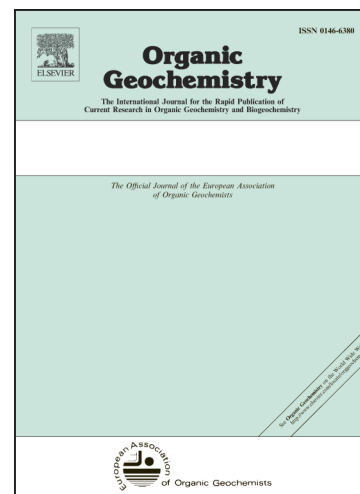

PII: S0146-6380(17)30438-2
DOI: <https://doi.org/10.1016/j.orggeochem.2017.12.002>
Reference: OG 3656

To appear in: *Organic Geochemistry*

Received Date: 24 July 2017
Revised Date: 22 November 2017
Accepted Date: 8 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Supraglacial microbes use young carbon and not aged cryoconite carbon
