

Accepted Manuscript

Sources, distributions, and burial efficiency of terrigenous organic matter in surface sediments from the Yellow River mouth, northeast China

Dayang Sun, Jianhui Tang, Yuxin He, Weisen Liao, Yongge Sun

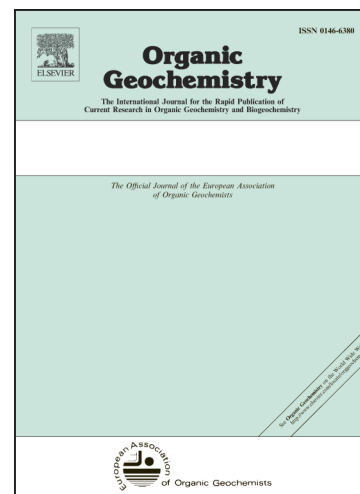

PII: S0146-6380(18)30013-5
DOI: <https://doi.org/10.1016/j.orggeochem.2017.12.009>
Reference: OG 3669

To appear in: *Organic Geochemistry*

Received Date: 28 June 2017
Revised Date: 13 December 2017
Accepted Date: 23 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Sources, distributions, and burial efficiency of terrigenous organic matter in surface sediments from the Yellow River mouth, northeast China
