

Accepted Manuscript

An efficient and facile method of grafting Allyl groups to chemically resistant polyketone membranes

Youn Seo Jung, Ali Canlier, Taek Sung Hwang

PII: S0032-3861(18)30205-2

DOI: [10.1016/j.polymer.2018.03.007](https://doi.org/10.1016/j.polymer.2018.03.007)

Reference: JPOL 20420

To appear in: *Polymer*

Received Date: 10 October 2017

Revised Date: 19 February 2018

Accepted Date: 2 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Graphical Abstract

Figure. Grafting pending allyl groups onto polyketone polymer chain.
