

# Accepted Manuscript

Identifying the role of the acidic comonomer in poly(acrylonitrile-co-itaconic acid) during stabilization process through low temperature electron beam irradiation

Dong Won Cho, Ravindra V. Ghorpade, Sung Chul Hong

PII: S0141-3910(18)30154-X

DOI: [10.1016/j.polymdegradstab.2018.05.007](https://doi.org/10.1016/j.polymdegradstab.2018.05.007)

Reference: PDST 8541

To appear in: *Polymer Degradation and Stability*

Received Date: 27 July 2017

Revised Date: 5 April 2018

Accepted Date: 2 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Graphical Abstract

Identifying the role of the acidic comonomer in poly(acrylonitrile-*co*-itaconic acid) during stabilization process through low temperature electron beam irradiation

Dong Won Cho, Ravindra V. Ghorpade, Sung Chul Hong\*
