Accepted Manuscript

Hydrolytic and compost degradation of biobased PBSF and PBAF copolyesters with 40–60 mol% BF unit

Shuangbao Peng, Linbo Wu, Bo-Geng Li, Philippe Dubois

PII: S0141-3910(17)30206-9

DOI: 10.1016/j.polymdegradstab.2017.07.016

Reference: PDST 8295

To appear in: *Polymer Degradation and Stability*

Received Date: 28 June 2017

Revised Date: 0141-3910 0141-3910

Accepted Date: 15 July 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
