Synthesis, properties and molecular conformation of paramylon ester derivatives

Hongyi Gan, Yukiko Enomoto-Rogers, Taizo Kabe, Daisuke Ishii, Takaaki Hikima,
Masaki Takata, Tadahisa Iwata

PII: S0141-3910(17)30127-1

DOI: [10.1016/j.polymdegradstab.2017.05.011](https://doi.org/10.1016/j.polymdegradstab.2017.05.011)

Reference: PDST 8230

To appear in: *Polymer Degradation and Stability*

Received Date: 16 February 2017

Accepted Date: 16 May 2017

Please cite this article as: Gan H, Enomoto-Rogers Y, Kabe T, Ishii D, Hikima T, Takata M, Iwata T, Synthesis, properties and molecular conformation of paramylon ester derivatives, *Polymer Degradation and Stability* (2017), doi: 10.1016/j.polymdegradstab.2017.05.011.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
