

Accepted Manuscript

An indentation method for evaluating the residual stress of polymeric materials: Equi-biaxial and non-equi-biaxial residual stress states

Tomoki Akahori, Takumi Nagakura, Shugo Fushimi, Akio Yonezu

PII: S0142-9418(18)30969-3

DOI: [10.1016/j.polymertesting.2018.07.024](https://doi.org/10.1016/j.polymertesting.2018.07.024)

Reference: POTE 5557

To appear in: *Polymer Testing*

Received Date: 20 June 2018

Accepted Date: 26 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Test Method

An indentation method for evaluating the residual stress of polymeric materials:

Equi-biaxial and non-equi-biaxial residual stress states

Tomoki Akahori, Takumi Nagakura, Shugo Fushimi, Akio Yonezu*
