Fully physical double network hydrogels with high strength, rapid self-recovery and self-healing performances

Dandan Wei, Jia Yang, Lin Zhu, Feng Chen, Ziqing Tang, Qin Gang, Qiang Chen

PII: S0142-9418(18)30653-6

DOI: [10.1016/j.polymertesting.2018.05.025](https://doi.org/10.1016/j.polymertesting.2018.05.025)

Reference: POTE 5472

To appear in: *Polymer Testing*

Received Date: 19 April 2018

Accepted Date: 16 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Fully Physical Double Network Hydrogels with High Strength, Rapid Self-Recovery and Self-Healing Performances
