Destructive vs. non-destructive methods for the mechanical characterisation of tannin-based thermoset foams

C. Delgado-Sánchez, F.J. Santiago-Medina, V. Fierro, A. Pizzi, A. Celzard

PII: S0142-9418(18)30618-4

DOI: [10.1016/j.polymertesting.2018.05.046](https://doi.org/10.1016/j.polymertesting.2018.05.046)

Reference: POTE 5493

To appear in: *Polymer Testing*

Received Date: 16 April 2018

Accepted Date: 26 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
