Control of hydrolytic degradation of Poly(lactic acid) by incorporation of chain extender: From bulk to surface erosion

Fabiola Iñiguez-Franco, Rafael Auras, Jasim Ahmed, Susan Selke, Maria Rubino, Kirk Dolan, Herlinda Soto-Valdez

PII: S0142-9418(18)30038-2

DOI: [10.1016/j.polymertesting.2018.02.028](https://doi.org/10.1016/j.polymertesting.2018.02.028)

Reference: POTE 5352

To appear in: *Polymer Testing*

Received Date: 9 January 2018

Revised Date: 27 February 2018

Accepted Date: 28 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
