Fast room-temperature reduction of graphene oxide by methane/argon plasma for flexible electronics

Cheng Yang, Junyi Gong, Pan Zeng, Xilu Yang, Rongqing Liang, Qiongrong Ou, Shuyu Zhang

PII: S0169-4332(18)31270-4
DOI: <https://doi.org/10.1016/j.apsusc.2018.04.272>
Reference: APSUSC 39271

To appear in: *Applied Surface Science*

Received Date: 29 December 2017
Revised Date: 25 April 2018
Accepted Date: 30 April 2018

Please cite this article as: C. Yang, J. Gong, P. Zeng, X. Yang, R. Liang, Q. Ou, S. Zhang, Fast room-temperature reduction of graphene oxide by methane/argon plasma for flexible electronics, *Applied Surface Science* (2018), doi: <https://doi.org/10.1016/j.apsusc.2018.04.272>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
