TiO₂ Nanosheets Decorated with B₄C Nanoparticles as Photocatalysts for Solar Fuel Production under Visible Light Irradiation

Xiaojie Zhang, Jipeng Yang, Tiancong Cai, Guoqiang Zuo, Changqing Tang

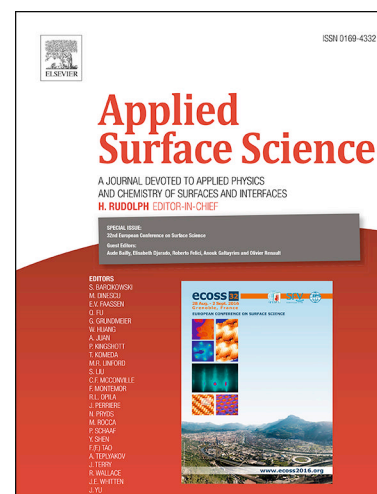

PII: S0169-4332(18)30638-X
DOI: <https://doi.org/10.1016/j.apsusc.2018.02.275>
Reference: APSUSC 38733

To appear in: *Applied Surface Science*

Received Date: 29 November 2017
Revised Date: 12 February 2018
Accepted Date: 28 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
