Full Length Article

Bulk oxygen vacancies enriched TiO₂ and its enhanced visible photocatalytic performance

Liming Xu, Xujun Ma, Na Sun, Feng Chen

PII: S0169-4332(18)30333-7
DOI: <https://doi.org/10.1016/j.apsusc.2018.01.308>
Reference: APSUSC 38447

To appear in: *Applied Surface Science*

Received Date: 24 September 2017
Revised Date: 27 January 2018
Accepted Date: 31 January 2018

Please cite this article as: L. Xu, X. Ma, N. Sun, F. Chen, Bulk oxygen vacancies enriched TiO₂ and its enhanced visible photocatalytic performance, *Applied Surface Science* (2018), doi: <https://doi.org/10.1016/j.apsusc.2018.01.308>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Bulk oxygen vacancies enriched TiO₂ and its enhanced visible photocatalytic performance
