Modelling of the Sb and N distribution in type II GaAsSb/GaAsN superlattices for solar cell applications

D.F. Reyes, V. Braza, A. Gonzalo, A.D. Utrilla, J.M. Ulloa, T. Ben, D. González

PII: S0169-4332(18)30456-2  
DOI: <https://doi.org/10.1016/j.apsusc.2018.02.113>  
Reference: APSUSC 38571

To appear in: *Applied Surface Science*

Received Date: 25 August 2017  
Revised Date: 19 January 2018  
Accepted Date: 10 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
