Preparation of Lysine-Decorated Polymer-Brush-Grafted Magnetic Nanocomposite for the Efficient and Selective Adsorption of Organic Dye

Shiyao Jing, Xin Wang, Yebang Tan

PII: S0169-4332(18)30278-2

DOI: <https://doi.org/10.1016/j.apsusc.2018.01.259>

Reference: APSUSC 38398

To appear in: *Applied Surface Science*

Received Date: 20 November 2017

Revised Date: 24 January 2018

Accepted Date: 28 January 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Preparation of Lysine-Decorated Polymer-Brush-Grafted
Magnetic Nanocomposite for the Efficient and Selective
Adsorption of Organic Dye**
