1D Cu(OH)₂ nanorod/2D SnO₂ nanosheets core/shell structured array: covering with graphene layer leads to excellent performances on lithium-ion battery

Huicong Xia, Jianan Zhang, Zhimin Chen, Qun Xu

PII: S0169-4332(17)33923-5
DOI: <https://doi.org/10.1016/j.apsusc.2017.12.263>
Reference: APSUSC 38133

To appear in: *Applied Surface Science*

Received Date: 10 August 2017
Revised Date: 15 November 2017
Accepted Date: 30 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
