Title: A new strategy to produce low-density polyethylene (LDPE)-based composites simultaneously with high flame retardancy and high mechanical properties

Authors: Liguó Shen, Jianxi Li, Renjie Li, Hongjun Lin, Jianrong Chen, Bao-Qiang Liao

PII: S0169-4332(17)33737-6
DOI: <https://doi.org/10.1016/j.apsusc.2017.12.149>
Reference: APSUSC 38019

To appear in: *APSUSC*

Received date: 21-11-2017
Revised date: 16-12-2017
Accepted date: 18-12-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A new strategy to produce low-density polyethylene (LDPE)-based composites simultaneously with high flame retardancy and high mechanical properties
