

## Accepted Manuscript

Title: Primary particle diameter differentiation and bimodality identification by five analytical methods using gold nanoparticle size distributions synthesized by pulsed laser ablation in liquids

Authors: Alexander Letzel, Bilal Gökce, Andreas Menzel, Anton Plech, Stephan Barcikowski

PII: S0169-4332(17)33412-8  
DOI: <https://doi.org/10.1016/j.apsusc.2017.11.130>  
Reference: APSUSC 37712

To appear in: *APSUSC*

Received date: 22-8-2017  
Revised date: 14-11-2017  
Accepted date: 15-11-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
