

## Accepted Manuscript

The physicochemical properties and tyrosinase inhibitory activity of ectoine and its analogues: A theoretical study

Roya Behazin, Ali Ebrahimi

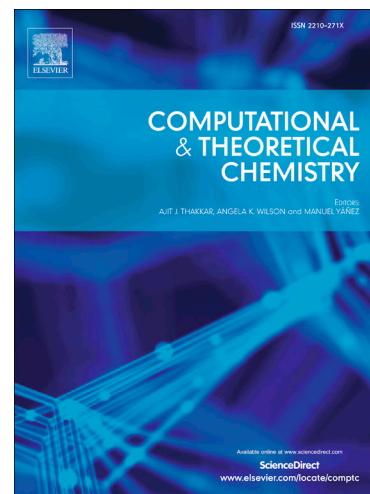

PII: S2210-271X(18)30079-3  
DOI: <https://doi.org/10.1016/j.comptc.2018.03.003>  
Reference: COMPTC 2737

To appear in: *Computational & Theoretical Chemistry*

Received Date: 27 December 2017  
Revised Date: 28 February 2018  
Accepted Date: 4 March 2018

Please cite this article as: R. Behazin, A. Ebrahimi, The physicochemical properties and tyrosinase inhibitory activity of ectoine and its analogues: A theoretical study, *Computational & Theoretical Chemistry* (2018), doi: <https://doi.org/10.1016/j.comptc.2018.03.003>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**The physicochemical properties and tyrosinase inhibitory activity of ectoine and its analogues: A theoretical study**
