On the anomalous composition dependence of viscosity and surface tension in refrigerant blends

Wael A. Fouad, Lourdes F. Vega

PII: S0167-7322(18)32759-4
DOI: [doi:10.1016/j.molliq.2018.07.056](https://doi.org/10.1016/j.molliq.2018.07.056)
Reference: MOLLIQ 9377
To appear in: *Journal of Molecular Liquids*
Received date: 27 May 2018
Revised date: 12 July 2018
Accepted date: 14 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**On the anomalous composition dependence of viscosity and surface tension in
refrigerant blends**

Wael A. Fouad* and Lourdes F. Vega

*Gas Research Center and Department of Chemical Engineering, Khalifa University of Science
and Technology, Petroleum Institute, P.O. Box 2533, Abu Dhabi, United Arab Emirates*
