

Accepted Manuscript

The microbial toxicity of quaternary ammonium ionic liquids is dependent on the type of lipopolysaccharide

Paweł Kowalczyk, Andrzej Borkowski, Grzegorz Czerwonka, Tomasz Cłapa, Jolanta Cieśla, Anna Misiewicz, Marta Borowiec, Mateusz Szala

PII: S0167-7322(18)32007-5
DOI: doi:[10.1016/j.molliq.2018.06.102](https://doi.org/10.1016/j.molliq.2018.06.102)
Reference: MOLLIQ 9300
To appear in: *Journal of Molecular Liquids*
Received date: 15 April 2018
Revised date: 7 June 2018
Accepted date: 26 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The microbial toxicity of quaternary ammonium ionic liquids is dependent on the type of lipopolysaccharide
