The relative viscosity of NaNO₃ and NaNO₂ aqueous solutions

Jacob G. Reynolds, Billie M. Mauss, Richard C. Daniel

PII: S0167-7322(18)30599-3
DOI: doi:[10.1016/j.molliq.2018.05.036](https://doi.org/10.1016/j.molliq.2018.05.036)
Reference: MOLLIQ 9091
To appear in: *Journal of Molecular Liquids*
Received date: 2 February 2018
Revised date: 28 April 2018
Accepted date: 8 May 2018

Please cite this article as: Jacob G. Reynolds, Billie M. Mauss, Richard C. Daniel , The relative viscosity of NaNO₃ and NaNO₂ aqueous solutions. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The Relative Viscosity of NaNO_3 and NaNO_2 Aqueous Solutions
