Natural convection and entropy generation of a ferrofluid in a square enclosure under the effect of a horizontal periodic magnetic field

S.A.M. Mehryan, Mohsen Izadi, Ali J. Chamkha, Mikhail A. Sheremet

PII: S0167-7322(17)36253-0
DOI: doi:[10.1016/j.molliq.2018.04.119](https://doi.org/10.1016/j.molliq.2018.04.119)
Reference: MOLLIQ 9022
To appear in: *Journal of Molecular Liquids*
Received date: 30 December 2017
Revised date: 21 April 2018
Accepted date: 23 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Natural convection and entropy generation of a ferrofluid in a square enclosure under the effect of a horizontal periodic magnetic field
