

## Accepted Manuscript

Synthesis of eco-friendly copper nanoparticles for augmentation of catalytic degradation of organic dyes

John Bani Fathima, Arivalagan Pugazhendhi, Mohammad Oves, Rose Venis

PII: S0167-7322(17)33781-9  
DOI: doi:[10.1016/j.molliq.2018.03.033](https://doi.org/10.1016/j.molliq.2018.03.033)  
Reference: MOLLIQ 8807  
To appear in: *Journal of Molecular Liquids*  
Received date: 20 August 2017  
Revised date: 28 February 2018  
Accepted date: 9 March 2018

Please cite this article as: John Bani Fathima, Arivalagan Pugazhendhi, Mohammad Oves, Rose Venis , Synthesis of eco-friendly copper nanoparticles for augmentation of catalytic degradation of organic dyes. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Molliq(2017), doi:[10.1016/j.molliq.2018.03.033](https://doi.org/10.1016/j.molliq.2018.03.033)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Synthesis of eco-friendly copper nanoparticles for augmentation of catalytic degradation of organic dyes**
