Gibbs energy additivity approaches to QSPR in modelling of isentropic compressibility of biodiesel

Piyawan Krisanangkura, Supathra Lilitchan, Suriya Phankosol, Kornkanok Aryusuk, Kanit Krisnangkura

PII: S0167-7322(17)33623-1
DOI: doi:[10.1016/j.molliq.2017.10.150](https://doi.org/10.1016/j.molliq.2017.10.150)
Reference: MOLLIQ 8113
To appear in: *Journal of Molecular Liquids*
Received date: 9 August 2017
Revised date: 15 October 2017
Accepted date: 31 October 2017

Please cite this article as: Piyawan Krisanangkura, Supathra Lilitchan, Suriya Phankosol, Kornkanok Aryusuk, Kanit Krisnangkura , Gibbs energy additivity approaches to QSPR in modelling of isentropic compressibility of biodiesel. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Molliq(2017), doi:[10.1016/j.molliq.2017.10.150](https://doi.org/10.1016/j.molliq.2017.10.150)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Gibbs energy additivity approaches to QSPR in modelling of isentropic compressibility of biodiesel
