Backbone amide ^{15}N chemical shift tensors report on hydrogen bonding interactions in proteins: A magic angle spinning NMR study

Sivakumar Paramsviam, Angela M. Gronenborn, Tatyana Polenova

PII: S0926-2040(17)30109-1

DOI: [10.1016/j.ssnmr.2018.03.002](https://doi.org/10.1016/j.ssnmr.2018.03.002)

Reference: YSNMR 831

To appear in: *Solid State Nuclear Magnetic Resonance*

Received Date: 22 January 2018

Revised Date: 8 March 2018

Accepted Date: 9 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
