

# Accepted Manuscript

Direct detection and characterization of bioinorganic peroxo moieties in a vanadium complex by  $^{17}\text{O}$  solid-state NMR and density functional theory

Rupal Gupta, John Stringer, Jochem Struppe, Dieter Rehder, Tatyana Polenova

PII: S0926-2040(17)30151-0

DOI: [10.1016/j.ssnmr.2018.02.001](https://doi.org/10.1016/j.ssnmr.2018.02.001)

Reference: YSNMR 829

To appear in: *Solid State Nuclear Magnetic Resonance*

Received Date: 20 November 2017

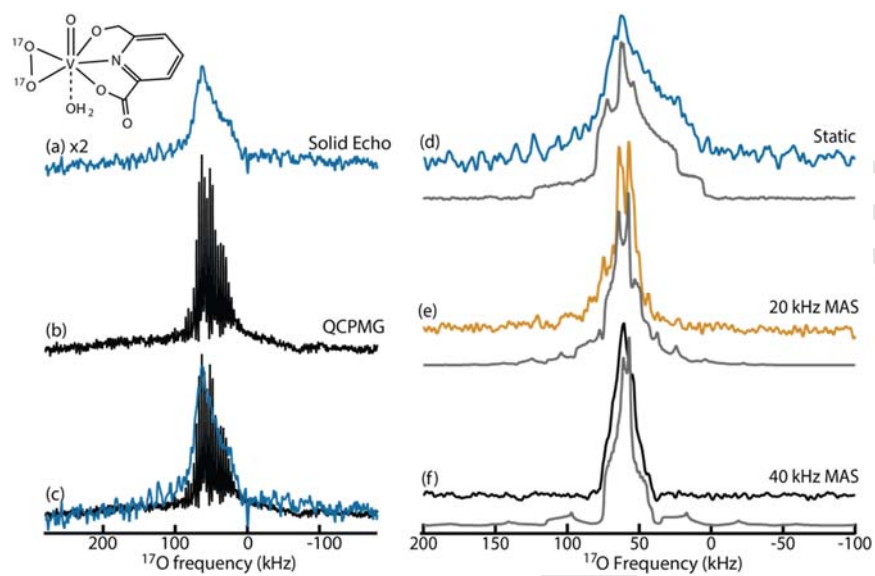

Revised Date: 6 February 2018

Accepted Date: 7 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
