Tin chemical shift anisotropy in tin dioxide: On ambiguity of CSA asymmetry derived from MAS spectra

Abil E. Aliev, Albert P. Bartók, Jonathan R. Yates

PII: S0926-2040(17)30130-3

DOI: [10.1016/j.ssnmr.2017.11.002](https://doi.org/10.1016/j.ssnmr.2017.11.002)

Reference: YSNMR 821

To appear in: *Solid State Nuclear Magnetic Resonance*

Received Date: 14 October 2017

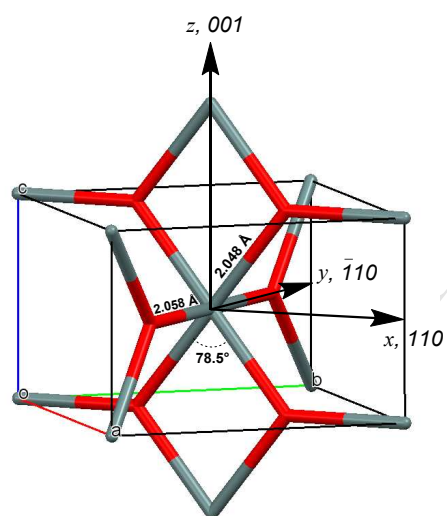

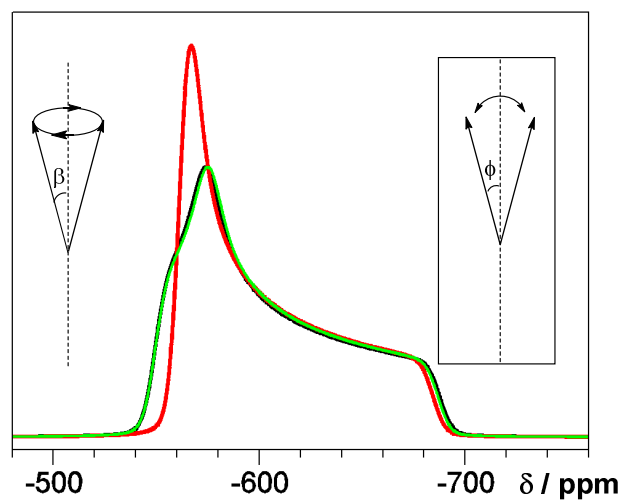

Revised Date: 22 November 2017

Accepted Date: 23 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
