Scattering of a High-Order Bessel Beam by a Spheroidal Particle

Lu Han

PII: S0022-4073(17)30868-3
DOI: [10.1016/j.jqsrt.2018.03.007](https://doi.org/10.1016/j.jqsrt.2018.03.007)
Reference: JQSRT 6023

To appear in: *Journal of Quantitative Spectroscopy & Radiative Transfer*

Received date: 14 November 2017
Revised date: 6 March 2018
Accepted date: 11 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights:

- Analytical solution for the scattering of a high-order Bessel beam by a spheroidal particle is presented.
- Spheroidal beam shape coefficients for a high-order Bessel beam is analyzed.
- Numerical results concerning scattered field are displayed for various parameters.
