Dietary Fibre for Glycaemia Control: Towards a Mechanistic Understanding

H. Douglas Goff, Nikolay Repin, Hrvoje Fabek, Dalia El Khoury, Michael J. Gidley

PII: S2212-6198(17)30012-8
DOI: <http://dx.doi.org/10.1016/j.bcdf.2017.07.005>
Reference: BCDF140

To appear in: *Bioactive Carbohydrates and Dietary Fibre*

Received date: 7 April 2017
Revised date: 24 June 2017
Accepted date: 11 July 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

***Corresponding author**

[☆] The authors wish to offer Prof. Glyn O. Phillips a special acknowledgement. He was instrumental in introducing the lead author of this paper, Prof. Goff, to the area of dietary fibre and encouraging him to tackle research at the interface of physical chemistry and nutritional sciences, so this paper is dedicated to him on the occasion of his 90th birthday.
