Imaging the porous structure in the core of degrading PLGA microparticles: The effect of molecular weight

Ioanna Mylonaki, Eric Allémann, Florence Delie, Olivier Jordan

PII: S0168-3659(18)30446-2
DOI: doi:[10.1016/j.jconrel.2018.07.044](https://doi.org/10.1016/j.jconrel.2018.07.044)
Reference: COREL 9404
To appear in: *Journal of Controlled Release*
Received date: 17 April 2018
Revised date: 6 July 2018
Accepted date: 27 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Imaging the porous structure in the core of degrading PLGA microparticles: the effect of molecular weight
